## Personal Information

Date of Birth 25/01/1994  
Place of Birth New Orleans, Louisiana, USA  
Nationality USA

---

## Education

- 10/2017–09/2020 **Master of Science, Economics, LMU, Munich, Germany, 1.9.**
- Concentrated on taking lectures and seminars dealing with econometrics and data analysis
  - Thesis: "Discrimination in Disaster: The Impact of Racial and Socioeconomic Factors on FEMA Flood Zones" – Grade: 1.0
    - Made use of Python, R, and ArcGIS in order to determine whether flood zone designation in the US is influenced not only by environmental but also socio-demographic factors
- 09/2012–05/2016 **Bachelor of Arts, Interdisciplinary Math & Economics, Fordham University, Bronx, New York, 3.73 (German equivalent: 1.3).**
- Learned about modern economic analysis while also studying the necessary mathematical foundations
  - Obtained best GPA within major
  - Inducted into Phi Beta Kappa, the oldest honor society for academics within the US
- 08/2018–05/2012 **High School Diploma, Jesuit High School, New Orleans, USA.**

---

## Experience

- 06/2020–03/2021 **Volunteer, NextGen IP, New Orleans, USA.**
- Volunteered for a foundation designing a new school program which will allow students to file their own patents with the US Patent Office
  - Identified potential methods to evaluate the efficacy of the program through statistical methods like regression and classification
  - Helped compose an application for a US government contract in order to fund and implement the program
- 05/2016–09/2017 **Legal Assistant, Donovan & Lawler Law Firm, Metairie, USA.**
- Utilized spreadsheet software in order to monitor information for numerous cases and to create helpful graphics like timelines
  - Read through deposition transcripts and condensed them into practical summaries of their critical points

08/2015–02/2016 **Data Collector**, *Bronx Community Development Initiative*, Bronx, USA.

- Surveyed hundreds of residents of the Bronx in order to obtain information regarding their demographic and socioeconomic situations
- Entered and cleaned the data in order to make it usable for software like Excel or Python
- Summarized the data into reports with key insights and graphics, which helped to determine what type of locally-owned business could succeed in the Bronx
